

Dealer Kit Welcome

A starting point for building strong dealer partnerships

Thank you for your interest in becoming a dealer for Victory Advanced Technologies Inc.

Please find enclosed our Dealer Kit, created to serve as a strong starting point for product education, dealer onboarding, customer support, and early sales conversations.

Built to Help You Get Started

This kit gives your team the core information needed to understand our current motor lineup, registration process, warranty approach, and support structure. It should act as a practical reference point as we begin working together and supporting your customers in the field.

As the dealer program grows, this package will continue to expand with additional products, updated data sheets, installation resources, newsletters, technical notes, pricing updates, and new sales support material.

Inside the Dealer Kit

- Product information and current motor details
- Dealer registration options and support process
- Warranty and RMA reference material

More to Come

- Additional product releases
- Dealer newsletters and technical updates
- Expanded installation and retrofit support

Our goal is simple:

make it easier for dealers to understand the product, support their customers, and move confidently from first conversation to installation.

We appreciate your interest and look forward to building a strong working relationship with your team.

Thank you,

Victory Advanced Technologies Inc.

VICTORY Advanced Technologies Inc.

Master Dealer Kit

Welcome to Victory Advanced Technologies

Dealer Kit Introduction - 2026

Thank you for your interest in Victory Advanced Technologies.

Victory engineers and manufactures advanced industrial electric motor systems built for demanding applications, long-term reliability, and real-world industrial use.

Dealer Kit Overview

Victory provides end-to-end engineering, manufacturing, and validation of electric motor systems for industrial and hazardous-duty environments.

Our vertically integrated model allows us to design, build, test, and support complete systems in-house. This gives Victory tighter quality control, faster development cycles, and scalable production solutions for our customers and partners.

Our capabilities span the full product lifecycle, including advanced motor design, electronics and controls, precision manufacturing, system-level testing, and field support. By keeping critical processes under one roof, Victory maintains direct accountability for performance, quality, and long-term serviceability.

Built for Industrial Purpose

Victory builds on decades of real-world industrial experience and is engineered to support the practical needs of OEM's, distributors, and service partners. Our approach is collaborative, technically driven, and focused on long-term partnerships.

This dealer kit provides an overview of our technology, capabilities, and partnership model. We look forward to working with you and supporting your team with reliable products, responsive engineering support, and scalable solutions designed for demanding industrial applications.

Thank you again for selecting Victory Advanced Technologies
Stephen A Belyea - President

2/3HP Industrial Hose Reel Motor

HRMA-56S Series

Product Overview

Victory's 2/3HP Hose Reel Motor is engineered for demanding mobile and industrial hose reel applications. Built for durability, corrosion resistance, and dependable performance, it provides a modern solution for customers who need reliable electric motor systems in the field.

Key Features

- 12V operation
- 2/3HP motor platform
- NEMA 56S frame
- Anodized aluminum construction
- Corrosion-resistant design
- Fully potted IP67 waterproof construction
- Drop-in replacement configuration
- Available in Standard and SMART versions

SMART Option Highlights

- Brake interlock
- Automatic hose unwind assist
- Reel-in / reel-out speed selection
- Soft start | soft stop control

Ideal Applications

- Propane delivery
- Fuel delivery
- Service trucks
- Industrial hose reel systems
- Stationary Reels

Contact Victory for product details, dealer support, and ordering information.

2/3HP Industrial Hose Reel Motors

Dealer Kit Product & Pricing Guide - 2026

Built for propane, fuel delivery, and heavy-duty mobile equipment applications.

Victory 2/3HP NEMA 56S hose reel motors help modernize hose reel drive systems with rugged construction, waterproof protection, and practical options for both straightforward replacement and premium SMART control applications.

Product Pricing Overview

Two configurations are available: the SMART Motor for advanced hose reel control and the Standard Motor for reliable drop-in replacement applications.

SMART Hose Reel Motor

HRMA-56S-12V-SMT

Premium hose reel control with soft start-stop, speed selection, brake interlock, and unwind assist.

Best fit: Premium control, smoother operation, and added functionality.

LIST PRICE
\$1,700

DISTRIBUTOR PRICE
\$1,275

Standard Hose Reel Motor

HRMA-56S-12V-STD

Rugged drop-in replacement performance for standard hose reel applications.

Best fit: A dependable replacement with a simple installation path.

LIST PRICE
\$1,000

DISTRIBUTOR PRICE
\$750

Feature	SMART	Standard

Warranty & Return Procedure

Dealer Kit Support Document - 2026

**Warranty support built for real industrial service.**

This procedure outlines Victory Advanced Technologies limited warranty coverage and the required process for returning products for evaluation, repair, or replacement.

4 Year Limited Warranty

Victory Advanced Technologies extends this limited warranty to the original purchaser of Victory products, subject to the terms and conditions below.

If a Victory product proves defective by reason of improper workmanship or material during the warranty period, Victory will repair or, at its option, replace the product without charge for parts and labour. Replacement may be completed using a new or factory-reconditioned unit.

This warranty does not apply to products damaged by accident, misuse, improper installation, fire, lightning, environmental events, unauthorized modification, unauthorized repair, or use with components or equipment not supplied or approved by Victory Advanced Technologies.

Victory Advanced Technologies shall not be liable for direct, indirect, consequential, or incidental loss or damage arising from use of the product.

Warranty period: 4 years from the original date of purchase, unless otherwise stated in writing by Victory Advanced Technologies.

Before contacting Victory

- Part number
- Product description
- Serial number
- Original invoice / PO
- Reason for return
- Customer contact info

Procedure for Returning Goods

Step 1 - Required Information

Gather the product details and reason for return before contacting Victory.

Step 2 - Contact Victory

Contact Victory by phone or email. A representative will review the request and advise on the next step.

Step 3 - Assign RMA Number

Victory will issue a Return Material Authorization number. Include it with the shipment and on the outside of the package.

Warranty & Return Procedure

Return Material Authorization Procedure - Continued

Return Shipment Requirements

Once an RMA number has been issued, follow the shipment documentation, packing, and shipping requirements below.

Step 4 - Shipment Documentation

Include a packing list that clearly describes the returned item and lists the RMA number. If the shipment crosses a border, include the required commercial invoice or customs documents. Documents should indicate the goods are being returned for warranty evaluation or repair, with the appropriate declared value required by the carrier or customs authority.

Step 5 - Packing

Pack the goods securely in a suitable box using enough protective material to prevent damage during shipment. Include all required documents and clearly mark the RMA number on the outside of the box.

Step 6 - Shipping

Unless otherwise requested by Victory, returned goods should be shipped using a trackable service. The sender is responsible for proper packaging and appropriate freight insurance. Victory is not responsible for shipments lost, delayed, or damaged before arriving at our facility.

Important: Do not ship returned goods to Victory without an assigned RMA number. Unidentified shipments may be delayed or returned to se
